Steve,

We wanted to let you know that we have not identified sites where a 6 in soil cover was used, but we are still searching.

Marlene

Hi Arkwood team,

EPA GIS has developed an excellent Arkwood imagery timeline using historical photographs to assist us. See below email for instructions to download, you must be on the EPA intranet to access.

Subject: Arkwood Imagery

Stephen,

We've compiled the imagery we could for the Arkwood site and have created a document (pdf) so you can click through the different years. The document is too big to send via email, therefore I've posted it to our website.

Go to: <http://r6gis1.r06.epa.gov/pickup/Superfund/Arkwood/>

The document is named Arkwood_Imagery.pdf. Right-click on the file name to open the context menu. Click on "Open" to view the document or "Save Target As ..." to save to your hard drive (or "Save Link As ..." depending on which browser you use).
